

# About me...

My name is Emma and I am a Clinical  
Psychologist

My pronouns are She / Her

It can help people feel more comfortable when they meet me for the first time if they know some things about me, so here we go...

My favourite colours are blue and green. I find it hard to choose between them so I can't pick one

I love music and enjoy going to concerts

I find it really annoying when my family eat crunchy food near me and have to sometimes move seats to escape!

I have a love / hate relationship with my very curly hair. On days when it behaves I quite like it, but it can be quite hard to tame!
